

People for Successful COrean REunification

Dear friends and partners of PSCORE,

Hopefully all of our Korea-based subscribers spent a pleasant time with their family during the long Chuseok Holidays. We also hope our subscribers from all over the world had a great October! We were also resting during the Korean holidays so we can return to work with new energy. PSCORE is working hard, supporting North Korean defectors and raising awareness. This month we are giving our Child Labour brief for the latest UNCRC session in Geneva, which we mentioned last time, the finishing touches. Additionally, our report about the reign of Kim Jong Un was published! We also held a speech event, a campaign and prepared lots of social media content.

Our new online funding campaign will soon start, so we hope you stay tuned for more of PSCORE!

Thank you for your continuous interest in our activities.

Sincerely,

People for Successful COrean REunification (PSCORE)

EVENTS

Speech Event

On October 8th 30 visitors from Australia and New Zealand visited our office for a small-scale speech event. One of the defectors we are supporting told them about his life in North Korea and how he escaped to the South. After his story there was time to ask some questions and our curious guests made great use of it. For additional information, they left our office with copies of our published reports. We thank you for your time and interest in North Korean human rights and PSCORE. Hopefully we will do more events like this in the future!

Migrant World Film Festival

From October 27th - 29th the Migrant World Film Festival was held at Ehwa Women's University. We participated as a major partner of the festival and helped to raise awareness about North Korean human rights conditions, via a stand giving out our published books and selling our bracelets (which you can also find in our store) . We also prepared some fun activities for visitors. As always, all donations will directly help the defectors, so we thank everyone who was at the festival and visited us!

EDUCATION PROGRAM

PSCORE's Education Program helps defectors not only adapt to the South Korean education system, but also with their studies. English classes are especially important in this more and more globalized country. Our volunteers teach them on a regular basis.
